I'm a self-taught developer who is passionate and caring about my work. As I love solving problems and always up to challenges, Software Development suited me very well. I'm eager to learn and grow in the team environment and satisfy customer requirements.

- **HTML5**
- **CSS/SCSS/BEM/Bootstrap**
- **JavaScript**
- GIT
- GITHUB

Experience

Website Theme: visit in here

Website theme to be used by startup. This website is re-created with pure **HTML/CSS and** Used **BEM** to make code maintainable and scalable in the long run.

Consulting company: visit in here

This website is for consulting company and is made with pure **HTML/CSS** and with **BEM and followed** DRY principles to make code more maintainable and scalable

Rock, Paper, Scissors: visit in here

I designed and built this famous game with web technologies as such, **JavaScript, HTML/CSS, BEM**. It's Computer vs Player game where winner is determined whoever scores 5 first

Education
